

CANADELL

CANADELL

HISTORY

Merrandier Canadell was established in 1940 by Lauriano Canadell in Trie-sur-Baïse in France's Hautes Pyrénées department. For four generations and over sixty years, Canadell has been providing staves of the highest quality to the largest and most prestigious cooperages around the world for barrel making. In 2000 Canadell launched their own line of fine oak alternative products for winemaking which include fans, chips, dominos and barrel inserts.

TODAY

Canadell is currently managed by Jacques Canadell and his son Frédéric. Canadell is one of the oldest and largest customers of France's Office National des Forêts (ONF).

Fred and Jacques Canadell in front of a French oak log destined for stave production.

With two stave mills in France and connections to France's most prestigious forests, Canadell uses strict proprietary toasting regimens to carefully craft a complete line of oak alternatives.

Canadell oversees the entire manufacturing process of its oak alternative products for full traceability, from selecting trees in the forest to seasoning, splitting, air drying, toasting and the final packaging of the product. Canadell is part of the PEFC (Programme for the Endorsement of Forest Certification) which is the world's largest forest certification system that promotes sustainable forest management.

STYLISTICALLY

The Canadell product line includes powder and chips for use during fermentation and post ferment aging, to dominoes and staves, which best showcase the qualities of French oak and show characters remarkably similar to barrel aging. Canadell bridges the gap between barrels and oak alternatives.

French oak dominos.

French oak staves.

STRONG POINTS

- Company historically is a merrandier, ensuring control of its oak alternative product line from the source: the oak tree
- Complete in house integration from when oak is cut to packaging
- Independently owned
- Large selection of alternative products and toast levels
- Staves are evenly spaced and air dried outside in the elements for optimal ventilation and seasoning
- Fire toasted and convection toasted staves
- Chips • Dominos
- Barrel inserts (through head of barrel)
