

HARVEST 2024 FRENCH OAK PRICES

SMALL BARRELS: 114L, 57L, 28L

Prices DDP Christchurch or DDP Napier

Small barrels have always been a part of the Burgundian tradition. They are often used for top crus that are available in minute quantities. The desire among Burgundian winmakers to maximize terroir leads them to use a variety of barrel sizes. The availability of 114L, 57L and even 28L barrels optimizes their ability to keep all lots separate during l'elevage, down the last drop.
